Invitation to public consultation for Cardigan Nature Park – In person and online

Dear Stakeholder,

LUC are working in partnership with Ceredigion County Council and Aberteifi/Cardigan Town Council on the development and design of a wetland nature park in the Mwldan area, Cardigan. This project is the first stage to establish the feasibility of the nature park, the local interest, and the priorities for this space.

Why?

The provision of a Nature Park at the centre of Cardigan Town would bring people from various backgrounds and cohorts together and provide a focus within the community, to enable local families, with young children, teenagers and young people to improve their health and wellbeing. In addition, an attraction of this type has the potential to draw visitors from the wider area and would also provide a destination for tourists, thus benefitting the local economy. Such a development aims to boost new business and employment opportunities in the local economy.

How to get involved?

You have been identified as a Key Stakeholder to help develop this proposal and we are seeking your early input into our consultation process. The best places are designed with the knowledge of local stakeholders and the community, that's why we want to know your ideas for this space.
